Welcome to the profile of Babji Neelam

Addressing trainees on campus

Talent was **never** the shortage. **Industry readiness** was. My mission is to bridge that gap.

Babji Neelam · on his vision

With thousands of trainees

WHO HE IS

About Babji Neelam

Babji Neelam is the Founder & CEO of **Technical Hub**, a skill-development and incubation centre founded in 2016, and of **Torii Minds**, an AI-driven tech-education platform launched in 2025 and backed by **NCC**.

He began in August 1997 as a Lab Technician at **APTECH**, taught at Datapro, ICSS and NetGSC, and was faculty at the Aditya Degree and Aditya Engineering colleges. From February 2005 to January 2016 he worked in global IT: as a Java Software Engineer at **IBM**, then as a Project Manager at **Wipro Technologies**, on site in Australia and Switzerland.

His idea is simple: academic success has to translate into employability, so that every graduate steps into the workplace **ready to contribute from day one.**

WHAT HE BELIEVES

Technical education should end in a job, not a certificate alone: mentored by working engineers, measured by industry certifications and proven on live projects.

IN ONE LINE

- **1997 – 2004** · the educator
- **2005 – 2016** · the technologist, IBM & Wipro
- **2016 – today** · the founder, Technical Hub & Torii Minds

With education leaders

Honoured at Aditya Degree & PG College

1997 TO 2026

Leadership Journey

AUG 1997 – DEC 2004

The Educator

From Lab Technician at APTECH to Senior Trainer at NetGSC, then faculty at the Aditya colleges.

FEB 2005 – JAN 2016

The Technologist

Java Software Engineer at IBM, then Project Manager at Wipro Technologies.

2016

The Founder

Technical Hub is founded: a skill-development and incubation centre bridging academia and industry.

2019

The Builder

From training centre to solutions company, building enterprise apps for corporate clients.

2025

The Next Chapter

Torii Minds is launched: an AI-driven tech-education platform, backed by NCC.

2026

The AI Era

Partnering with Claude, OpenAI and Sarvam AI to lead AI-first education.

15+ years with IBM and Wipro

The Torii team

1997 TO 2016

Teaching & Global IT

TEACHING · 1997 – 2004

- **APTECH**, Lab Technician: hands-on lab support at the grassroots of technical education.
- **Datapro**, Junior Technical Trainer: complex concepts as bite-sized lessons for beginners.
- **ICSS**, Technical Trainer: structured, advanced curricula for a wider audience.
- **NetGSC**, Senior Technical Trainer: advanced technologies, and mentoring fellow trainers.
- **Aditya Degree College**, Faculty: industry-focused teaching in undergraduate classrooms.
- **Aditya Engineering College**, Faculty: preparing engineering cohorts for the global tech industry.

IT INDUSTRY · 2005 – 2016

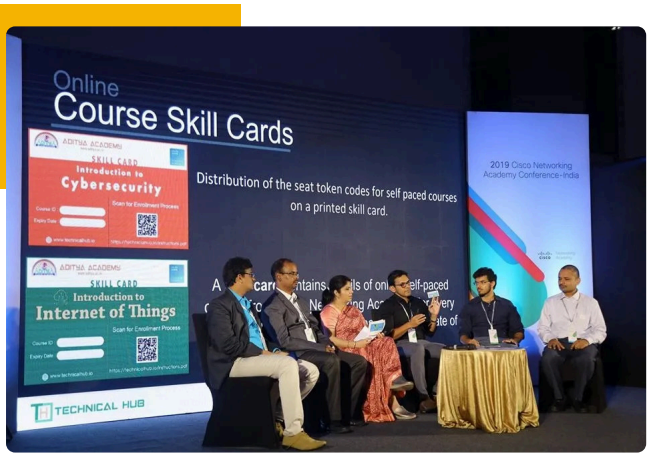

- **IBM**, Java Software Engineer: Java engineering for finance and fintech platforms.
- **Wipro Technologies**, Project Manager: led delivery for global clients.

TECHNICAL HUB × TORII MINDS

The Four-Year Engineer

A B.Tech roadmap from semester 1-1 to 4-2: one programme for every year.

Year 1 · Foundations

Bamboo Coder

Roots first: programming logic, the first AI literacy and the habits of a coder.

Year 2 · Core CS & projects

SkillUp Coder

Core computer science, real projects and the first taste of industry.

Year 3 · Industry stacks & AI

Drive Ready · AI Ready Engineer

Industry stacks, AI engineering and placement readiness.

Year 4 · Production & placement

Owl Coder

Production AI, live campus projects and the placement run.

Moon Coder, from semester 2-2 to 3-1: extra coding hours that sharpen competitive-coding speed. **AI Ready Engineer**: a structured path from the first AI class to an AI engineer, delivered with Torii Minds.

Welcome freshers

FROM FIRST CODE TO FIRST OFFER

Signature Programmes

CONNECT

INDUSTRY MEETS CAMPUS

25,000+ visitors across seven editions of Technical Hub's tech expo: trainees demo live projects at industry stalls.

DriveReady®
WE ARE HERE TO DESIGN YOUR FUTURE

PLACEMENT-READY PROGRAMME

7 successful editions, **5,000+ students** certified. 100 days on AWS, Flutter, Full Stack and Data, ending in certification and placement drives.

OWL coder®

FINAL-YEAR PROGRAMME

Live projects, deployment and the placement run. **Owl Coder 5.0** · December 2025.

Project Space
IDENTIFY · SOLVE · DEPLOY

IDENTIFY · SOLVE · DEPLOY

Real projects in a 24×7 innovation space, now in **season 8**. **3,000+** offline internships.

Project Street

EVERY PROJECT, OUT IN THE OPEN

Work on easels along the campus walkway, explained to mentors, faculty and the crowd at every board.
